

October 28, 2011

Dear Resident,

The Village of Lexington is undertaking its annual street tree removal and replacement program. * As a Tree City U.S.A., we understand the importance of trees both aesthetically and environmentally. As our Ash trees have been devastated by the Emerald Ash Borer, they are our main target for removal, along with a few failing maples and miscellaneous dead species. Our tree replacement policy will focus on diversity and sustainability. In this continuing endeavor, we hope to provide our future generations with the same urban forest canopy, we have had the privilege to enjoy.

Lexington Environmental Committee
